CHAPTER 1. NANOTECHNOLOGY INTRODUCTION

- § 1:1 Background
- § 1:2 Novel properties
- § 1:3 Novel-properties dilemma
- § 1:4 New applications
- § 1:5 Some definitions of nanotechnology
- § 1:6 Three categories of nanoscale materials
- § 1:7 Developmental phases of nanotechnology
- § 1:8 Nanotechnology global research and development
- § 1:9 1994 retrospective
- § 1:10 —Four developmental stages of nanotechnology
- § 1:11 —Insufficiency of existing laws?
- § 1:12 —Regulatory tightrope
- § 1:13 —Twin dangers
- § 1:14 —Lack of regulatory resources
- § 1:15 —Potential public fear and backlash
- § 1:16 —Time flies
- § 1:17 Nanotechnology-Specific regulation
- § 1:18 National Nanotechnology Initiative (NNI) and federal development efforts
- § 1:19 Potential nano-related environmental, health, and safety concerns
- § 1:20 Nanotechnology environmental regulatory issues
- § 1:21 Nano-related food and drug regulatory issues
- § 1:22 Nanoscale materials in the workplace
- § 1:23 Nano consumer products and insurance issues
- § 1:24 Municipal, regional, and state development and regulation of nanotechnology
- § 1:25 Nanotechnology standards and nomenclature
- § 1:26 Nano-intellectual-property landscape

CHAPTER 2. NATIONAL NANOTECHNOLOGY INITIATIVE (NNI) AND FEDERAL DEVELOPMENT EFFORTS

I. NATIONAL NANOTECHNOLOGY INITIATIVE (NNI)

- § 2:1 Structure and oversight
- § 2:2 Membership
- § 2:3 Coordinating hub
- § 2:4 Oversight—National Science and Technology Council (NSTC)
- § 2:5 —National Science and Technology Council’s (NSTC) Nanoscale Science, Engineering and Technology Subcommittee (NSET)
- § 2:6 —National Science and Technology Council’s (NSTC) Nanotechnology Environmental and Health Implications (NEHI) working group
- § 2:7 —National Science and Technology Council’s (NSTC) Nanomanufacturing Industry Liaison and Innovation (NILI) working group
- § 2:8 —National Science and Technology Council’s (NSTC) Global Issues in Nanotechnology (GIN) working group
- § 2:9 —National Science and Technology Council’s (NSTC) Nanomanufacturing Public Engagement and Communications working group
- § 2:10 National Nanotechnology Coordination Office (NNCO)
- § 2:11 National Nanotechnology Initiative, review by President’s Council of Advisors on Science and Technology (PCAST)
- § 2:12 Beginnings
- § 2:13 —Interagency Working Group on Nanotechnology (IWGN), Worldwide Study
- § 2:14 —Interagency Working Group on Nanotechnology (IWGN), Vision Report
- § 2:15 National Nanotechnology Initiative’s (NNI) adoption by President Clinton
- § 2:16 The 21st Century Nanotechnology Research and Development Act
- § 2:17 —Section one
- § 2:18 —Section two
- § 2:19 —Section three
- § 2:20 —Section four

TABLE OF CONTENTS

§ 2:21	—Section five
§ 2:22	—Section six
§ 2:23	—Section seven
§ 2:24	—Section eight
§ 2:25	—Section nine
§ 2:26	—Section 10
§ 2:27	National Nanotechnology Initiative (NNI) workshop reports
§ 2:28	—Manufacturing at the Nanoscale
§ 2:29	—Nanotechnology and the Environment
§ 2:30	—Nanotechnology in Space Exploration
§ 2:31	—Nanotechnology Instrumentation and Metrology
§ 2:32	—Nanotechnology: Societal Implications
§ 2:33	— —Productivity and Equity
§ 2:34	— —Future Economic Scenarios
§ 2:35	— —Quality of Life
§ 2:36	— —Future Social Scenarios
§ 2:37	— —Converging Technologies
§ 2:38	— —National Security and Space Exploration
§ 2:39	— —Ethics, Governance, Risk, and Uncertainty
§ 2:40	— —Public Policy, Legal, and International Aspects
§ 2:41	—Nanobiotechnology
§ 2:42	—Nanoscience Research for Energy Needs
§ 2:43	—Regional, State, and Local Initiatives in Nanotechnology
§ 2:44	The National Nanotechnology Initiative’s (NNI) approach to environmental, health, and safety (EHS)
§ 2:45	Approach to environmental, health, and safety (EHS), review by President’s Council of Advisors on Science and Technology (PCAST)
§ 2:46	Three primary environmental, health, and safety (EHS) documents
§ 2:47	2006 NNI EHS Needs Document
§ 2:48	—Interaction with biological systems
§ 2:49	—Risk mitigation formula
§ 2:50	—Life-cycle analysis
§ 2:51	—Next steps
§ 2:52	—Adequacy of existing data
§ 2:53	—Environmental research needs
§ 2:54	—Consumer issues
§ 2:55	—End-of-life issues
§ 2:56	—Communication
§ 2:57	2007 NNI EHS Prioritization Document

- § 2:58 —Instrumentation, metrology, and analytical methods
- § 2:59 —Nanomaterials and human health
- § 2:60 —Nanomaterials and the environment
- § 2:61 —Health and environmental exposure assessment
- § 2:62 —Risk management methods
- § 2:63 —Gap analysis
- § 2:64 2008 NNI EHS Strategy Document
- § 2:65 Budget and funding
- § 2:66 —FY 1997 federal nanotechnology funding
- § 2:67 —FY 1998 federal nanotechnology funding
- § 2:68 —FY 1999 federal nanotechnology funding
- § 2:69 —FY 2000 federal nanotechnology funding
- § 2:70 —FY 2001 federal nanotechnology funding
- § 2:71 —FY 2002 federal nanotechnology funding
- § 2:72 —FY 2003 federal nanotechnology funding
- § 2:73 —FY 2004 federal nanotechnology funding
- § 2:74 —FY 2005 federal nanotechnology funding
- § 2:75 —FY 2006 federal nanotechnology funding
- § 2:76 — —Allocation
- § 2:77 — —Government Accountability Office audit
- § 2:78 —FY 2007 federal nanotechnology funding
- § 2:79 — —Allocation
- § 2:80 — —Environmental, health, and safety (EHS) expenditures
- § 2:81 —FY 2008 federal nanotechnology funding
- § 2:82 — —Allocation
- § 2:83 — —Environmental, health, and safety (EHS) expenditures
- § 2:84 —FY 2009 federal nanotechnology funding
- § 2:85 — —Allocation
- § 2:86 — —Environmental, health, and safety expenditures

II. FEDERAL NANOTECHNOLOGY RESEARCH AND DEVELOPMENT EFFORTS

- § 2:87 Consumer Product Safety Commission (CPSC)
- § 2:88 Department of Commerce (DOC)
- § 2:89 —Bureau of Industry and Security
- § 2:90 —National Institute of Standards and Technology (NIST)
- § 2:91 —National Institute of Standards and Technology, 2006 report
- § 2:92 —National Institute of Standards and Technology, Center for Nanoscale Science and Technology

TABLE OF CONTENTS

§ 2:93 —National Institute of Standards and Technology,
National Technical Information Service (NTIS)

§ 2:94 Department of Defense (DOD)

§ 2:95 —Institute for Soldier Nanotechnologies (ISN)

§ 2:96 —Center for Nanoscience Innovation for Defense
(University of California—Santa Barbara, Riverside,
Los Angeles)

CHAPTER 3. POTENTIAL NANO-RELATED ENVIRONMENTAL, HEALTH, AND SAFETY CONCERNS

- § 3:1 Background
- § 3:2 Human health concerns
- § 3:3 —Blanket statements difficult
- § 3:4 —More research is needed
- § 3:5 —Nanomaterial type
- § 3:6 — —Carbon nanoparticles
- § 3:7 — — —Fullerenes
- § 3:8 — — —Single-walled carbon nanotubes (SWCNTs)
- § 3:9 — — — —Cytotoxicity of single-walled carbon nanotubes (SWCNTs)
- § 3:10 — — — —Genotoxicity of single-walled carbon nanotubes (SWCNTs)
- § 3:11 — — — —Pulmonary effects of single-walled carbon nanotubes (SWCNTs)
- § 3:12 — — — —Single-walled carbon nanotubes (SWCNTs) in the bloodstream
- § 3:13 — — —Multiwalled carbon nanotubes (MWCNTs)
- § 3:14 — — —Other carbon nanoparticles
- § 3:15 — — —The next asbestos?
- § 3:16 — —Metal and metal-oxide based engineered nanoscale materials
- § 3:17 — — —Silver
- § 3:18 — — — —Silver background

- § 3:19 — — — —Nanosilver, U.S. Environmental Protection Agency citizen's petition
- § 3:20 — — — —Nanosilver, does shape matter?
- § 3:21 — — — —Nanosilver, does particle size matter?
- § 3:22 — — — —Titanium dioxide
- § 3:23 — — — —Zinc oxide
- § 3:24 — — — —Iron oxide
- § 3:25 — — — —Other metal and metal-oxide based nanoscale materials
- § 3:26 — — — —Quantum dots
- § 3:27 — — — —Other types of nanoscale particles subject to environmental, health, and safety (EHS) scrutiny
- § 3:28 — — — —Human exposure routes
- § 3:29 — — — —Inhalation
- § 3:30 — — — —Ingestion
- § 3:31 — — — —Dermal
- § 3:32 — — — —Cosmetics and sunscreens
- § 3:33 — — — —Fullerenes
- § 3:34 — — — —Carbon nanotubes
- § 3:35 — — — —Quantum dots
- § 3:36 — — — —Injection
- § 3:37 — — — —Environmental concerns
- § 3:38 — — — —Terrestrial species
- § 3:39 — — — —Aquatic species
- § 3:40 — — — —Unintentional releases from consumer products
- § 3:41 — — — —Unintentional releases from consumer products, Samsung washing machine
- § 3:42 — — — —Unintentional releases from consumer products, nanosilver socks
- § 3:43 — — — —Microscopic plants and animals
- § 3:44 — — — —Fish
- § 3:45 — — — —Crops/plants
- § 3:46 — — — —Soil

CHAPTER 4. NANOTECHNOLOGY ENVIRONMENTAL REGULATORY ISSUES

- § 4:1 — — — —Environmental Protection Agency (EPA)
- § 4:2 — — — —2007 Nanotechnology White Paper
- § 4:3 — — — —Potential environmental benefits
- § 4:4 — — — —Possible nano-specific regulation
- § 4:5 — — — —Environmental application research needs

TABLE OF CONTENTS

§ 4:6	— —Risk assessment research needs
§ 4:7	— —Recommendations
§ 4:8	Toxic Substances Control Act (TSCA)
§ 4:9	—Section 4: testing of chemical substances and mixtures
§ 4:10	—Section 5: manufacturing and processing notices
§ 4:11	— —New chemical substances
§ 4:12	— — —“TSCA Inventory Status of Nanoscale Substances”
§ 4:13	— — —2008 Federal Register Notice
§ 4:14	— — —2008 Thomas Swan consent order
§ 4:15	— — — —Risk assessment
§ 4:16	— — — —Conclusions of law
§ 4:17	— — — —Inhalation toxicity study
§ 4:18	— —Significant new uses of existing chemical substances
§ 4:19	— —2007 Public statement regarding categorical significant new use rules
§ 4:20	— —Significant new uses of existing chemical substances—2008 SNURs for siloxane-modified silica and alumina-modified nanoparticles
§ 4:21	— —Exemptions
§ 4:22	—Section 6: regulation of hazardous chemical substances and mixtures
§ 4:23	—Section 7: imminent hazards
§ 4:24	—Section 8(b): reporting and retention of information, inventory
§ 4:25	—Section 8(d): reporting and retention of information and health and safety studies
§ 4:26	—Nanoscale Materials Stewardship Program (NMSP)
§ 4:27	— —January 2009 initial report
§ 4:28	— —Future reporting
§ 4:29	Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
§ 4:30	—Application and registration application
§ 4:31	—Approval of application
§ 4:32	—Postregistration authority
§ 4:33	—Treated article exemption
§ 4:34	—Enforcement authority
§ 4:35	—Example of application
§ 4:36	Resource Conservation and Recovery Act (RCRA)
§ 4:37	—Solid waste
§ 4:38	Resource Conservation and Recovery Act (RCRA)—Hazardous waste
§ 4:39	Resource Conservation and Recovery Act (RCRA)—Characteristic hazardous wastes

- § 4:40 —Listed hazardous wastes
- § 4:41 —Hazardous waste generator regulation
- § 4:42 —Hazardous waste transporter regulation
- § 4:43 —Hazardous waste facility regulation
- § 4:44 —Hazardous waste permitting

CHAPTER 8. MUNICIPAL, REGIONAL, AND STATE DEVELOPMENT AND REGULATION OF NANOTECHNOLOGY

I. MUNICIPALITIES

- § 8:1 Berkeley, California
- § 8:2 —Existing literature
- § 8:3 —Safe harbor
- § 8:4 —Hazardous Materials Management Program
- § 8:5 —Triggering quantity
- § 8:6 —Labeling as “hazardous material”
- § 8:7 —Disclosure guidelines
- § 8:8 — —Toxicology reporting requirements
- § 8:9 — —Control banding
- § 8:10 — —Costs
- § 8:11 — —Confidentiality
- § 8:12 —Additional criticism
- § 8:13 Cambridge, Massachusetts
- § 8:14 —Existing companies
- § 8:15 —Business development
- § 8:16 —Nanotechnology Advisory Committee (NAC)
- § 8:17 —Report to City Council
- § 8:18 — —Unknown risks
- § 8:19 — —Scope of report
- § 8:20 — —Regulation inappropriate
- § 8:21 — —Specific recommendations

II. REGIONAL INITIATIVES

- § 8:22 Generally
- § 8:23 Center for Responsible Nanotechnology
- § 8:24 International Association of Nanotechnology
- § 8:25 International Council on Nanotechnology
- § 8:26 Mid-Atlantic Nanotechnology Alliance
- § 8:27 NanoBusiness Alliance
- § 8:28 NanoScience and Technology Institute
- § 8:29 Northcentral States Nanosystems Consortium

TABLE OF CONTENTS

§ 8:30 Northwest Nanoscience and Nanotechnology Network

III. STATE DEVELOPMENT AND REGULATION

- § 8:31 In general
- § 8:32 Alabama
 - § 8:33 —Alabama A&M University
 - § 8:34 —Alabama State University
 - § 8:35 —Auburn University
 - § 8:36 —Tuskegee University
 - § 8:37 —University of Alabama
- § 8:38 Arizona
 - § 8:39 —Arizona State University
 - § 8:40 — —Arizona Biodesign Institute
 - § 8:41 — —Arizona Institute for Nano-Electronics
 - § 8:42 — —Nanostructures Research Group
 - § 8:43 — —Sandra Day O'Connor College of Law
 - § 8:44 — —Center for Nanotechnology in Society
 - § 8:45 —Arizona Nanotechnology Cluster
 - § 8:46 —University of Arizona
