**UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA  
SAN FRANCISCO DIVISION**

CHEVRON CORP.,  
Plaintiff,  
v.  
STEVEN DONZIGER, and others,  
Defendants.

Case No. 12-mc-80237 CRB (NC)

**ORDER GRANTING IN PART AND  
DENYING IN PART MOTIONS TO  
QUASH SUBPOENAS**

Re: Dkt. Nos. 42, 43

Chevron served subpoenas on non-party internet service providers Google and Yahoo!, seeking the subscriber and usage information associated with sixty-eight email addresses. Defendants moved to quash the subpoenas. Thirty-two non-parties (“Doe movants”), whose email addresses are among those subpoenaed, also moved to quash the subpoenas. District Judge Charles R. Breyer referred both motions to this Court. Dkt. No. 24. The issues are (1) whether defendants and the Doe movants have standing to quash the subpoenas; (2) whether the subpoenas infringe upon the Doe movants’ First Amendment rights to speak anonymously and freely associate; (3) whether the subpoenas infringe the Doe movants’ right to privacy; and (4) whether the subpoenas are overbroad. After both motions were briefed, the Court held a hearing on the issues. For the reasons discussed below, the Court GRANTS IN PART AND DENIES IN PART the motions to quash.

//

## I. BACKGROUND

1  
2 This discovery dispute is just one small part in an elaborate maze of litigation  
3 spanning states, countries, and continents. In 2003, plaintiffs in Lago Agrio, Ecuador,  
4 represented by attorney Steven Donziger, sued Chevron under Ecuador's Environmental  
5 Management Act, seeking damages related to environmental harms alleged in Ecuador. *See*  
6 *Chevron Corp. v. Donziger*, 886 F. Supp. 2d 235, 242-43 (S.D.N.Y. July 31, 2012). The  
7 Ecuador Court awarded the Lago Agrio plaintiffs an \$18.2 billion judgment against  
8 Chevron on February 14, 2011. *Id.* at 245. Then, Chevron brought civil RICO claims  
9 against defendants in the Southern District of New York, alleging, among other things, that  
10 defendants attempted to defraud and extort Chevron by bringing suit in Ecuador, bribing  
11 Ecuadorian judges, ghostwriting opinions and expert reports, and exerting a pressure  
12 campaign on Chevron in the United States.

13 The most recent legal and factual findings regarding the substance of Chevron's  
14 claims come from District Judge Lewis A. Kaplan's March 15, 2013 order, in which he  
15 ruled on whether documents from the law firm Patton Boggs were protected by the  
16 attorney-client privilege. *Chevron Corp. v. Donziger*, No. 11-cv-00691 LAK (JCF), 2013  
17 WL 1087236 (S.D.N.Y. Mar. 15, 2013). In assessing whether the crime-fraud exception  
18 applied to the documents, Judge Kaplan found that Chevron has established probable cause  
19 to believe the RICO defendants have engaged in some fraud in five separate instances. *Id.*  
20 at \*30. Those five instances are (1) the alleged bribery of an Ecuadorian judge and the  
21 writing of the judgment and other judicial documents in the Lago Agrio case; (2) the Lago  
22 Agrio Plaintiffs' writing of the expert reports regarding judicial inspection submitted over  
23 Calmbacher's signature; (3) the circumstances under which the Lago Agrio court terminated  
24 the judicial inspection process; (4) the selection and appointment of Cabrera as a global  
25 expert, preparation and submission of his report to the Lago Agrio court, and its  
26 representation as his independent work; and (5) the submission of deceptive accounts of the  
27 Lago Agrio Plaintiffs' and Stratus Consulting's relationship with Cabrera in the District of  
28 Colorado and elsewhere in § 1782 proceedings. *See id.* Judge Kaplan based these findings

1 on evidence that was undisputed or about which he found no dispute of material fact in his  
2 previous order granting partial summary judgment and dismissing defendants' affirmative  
3 defense of res judicata. *Id.* at \*2, n.9; *see also Chevron Corp. v. Donziger*, 886 F. Supp. 2d  
4 at 286-90. Subsequent discovery orders by Magistrate Judge James C. Francis have  
5 continued to rely on these findings by Judge Kaplan. *See, e.g.*, No. 11-cv-00691 LAK  
6 (JCF) (S.D.N.Y.), Dkt. No. 1333 (ordering defendants to amend their privilege logs to  
7 include descriptions of withheld documents that give adequate bases from which to accept  
8 or challenge privilege and to produce documents reflecting communications with Stratus  
9 Consulting relating to the Cabrera report or any work provided to Mr. Cabrera).

10 This Court also relied on these factual findings in its April 5, 2013 order quashing  
11 Chevron's subpoena to Amazon Watch. *Chevron Corp. v. Donziger*, No. 13-mc-80038  
12 CRB (NC), 2013 WL 1402727, at \*4 (N.D. Cal. Apr. 5, 2013). In that order, this Court  
13 found that Amazon Watch had made a prima facie showing that enforcement of Chevron's  
14 subpoena would chill the communications of its core campaign strategists and organizers  
15 and result in members withdrawing. *Id.* The Court concluded that even assuming Amazon  
16 Watch was the mouthpiece of the RICO defendants, there was nothing to suggest that its  
17 speech fell outside the scope of the First Amendment's protection. *Id.* In reaching this  
18 conclusion, the Court relied on the five instances of fraud Judge Kaplan highlighted in his  
19 March 15, 2013 order and noted that none of the five instances referenced the alleged  
20 pressure campaign or Amazon Watch. *Id.*

21 On June 6, 2013, Judge Kaplan reiterated that the factual findings in his March 15,  
22 2013 order compelled the production of the Patton Boggs documents. No. 11-cv-00691  
23 LAK (JCF) (S.D.N.Y.), Dkt. No. 1216.

24 The RICO case against defendants is set to go to trial on October 15, 2013.<sup>1</sup>  
25 *Chevron Corp. v. Donziger*, No. 11-cv-00691 LAK (JCF) (S.D.N.Y.), Dkt. No. 1339.

26 <sup>1</sup> One claim was severed and dismissed by the Second Circuit. *See Chevron Corp. v. Naranjo*, 667  
27 F.3d 232, 240 (2d Cir. 2012), *cert. denied*, 133 S. Ct. 423 (2012). In addition, Chevron dismissed  
28 its claims against Stratus Consulting on April 8, 2013. *Chevron Corp. v. Donziger*, No. 11-cv-  
00691 LAK (JCF) (S.D.N.Y.), Dkt. No. 988.

1 Chevron filed a motion for partial summary judgment on August 16, 2013. No. 11-cv-  
2 00691 LAK (JCF) (S.D.N.Y.), Dkt. No. 1348. Discovery issues persist, however, and  
3 Judge Kaplan has issued an order to show cause why the trial dates should not be set back  
4 thirty days. No. 11-cv-00691 LAK (JCF) (S.D.N.Y.), Dkt. Nos. 1344, 1347.

5 At issue here are two motions to quash Chevron's subpoenas of non-parties Google  
6 and Yahoo!, one brought by defendants, and one brought by the Doe movants. Chevron  
7 seeks "[a]ll documents related to (A) the identity of the user of the following email  
8 addresses, including but not limited to documents that provide all names, mailing addresses,  
9 phone numbers, billing information, date of account creation, account information and all  
10 other identifying information associated with the email addresses under any and all names,  
11 aliases, identities or designations related to the email address; (B) the usage of the following  
12 email addresses, including but not limited to documents that provide IP logs, IP address  
13 information at time of registration and subsequent usage, computer usage logs, or other  
14 means of recording information concerning the email or Internet usage of the email  
15 address" since 2003 from both internet service providers ("ISPs"). Dkt. No. 42-1 at 9, 17.  
16 Chevron also seeks from Google "IP address information for the email sent by  
17 gringograndote@gmail.com to sdonziger@gmail.com on April 1, 2008 at 12:15 pm . . .  
18 with the subject 'Fwd: Informe Final.'" *Id.* at 9.

19 An internet protocol ("IP") address is a number that identifies the network location of  
20 a computer connected to the internet. Dkt. No. 43-1 at 2. A laptop or mobile device's IP  
21 address may change depending on the location at which it connects to the internet. *Id.* at 4.  
22 Every computer on the internet needs an IP address in order to communicate with other  
23 computers, visit websites, and send and receive email. *Id.* at 2.

24 Defendants argue that both subpoenas to the ISPs are overbroad and should be  
25 quashed. Specifically, defendants take issue with the length of time for which Chevron  
26 seeks records—nine years—and propose that, at the very least, the subpoenas should be  
27 limited to seek only materials up until the date of the Ecuadorian judgment on February 14,  
28 2011. In addition, defendants argue that the subpoenas are not sufficiently tailored to seek

1 only material that is relevant to the RICO case for which Chevron seeks discovery. And  
2 last, defendants argue that Chevron already has tens of thousands of defendant Steven  
3 Donziger's emails from a proceeding brought under 28 U.S.C. § 1782 in the Southern  
4 District of New York, indicating that the information is available by other means and  
5 making these subpoenas duplicative.

6 The Doe movants, none of whom is a named defendant in the underlying RICO  
7 action, move to quash arguing that the subpoenas violate their First Amendment rights to  
8 speech and association.<sup>2</sup> The Doe movants claim to be former interns, environmentalists,  
9 journalists, and bloggers who, at one point or another, have spoken out about the  
10 Ecuadorian rain forest and the alleged impact of Chevron's operations there. They contend  
11 that revealing the subscriber information associated with their email accounts will chill their  
12 anonymous speech about an issue of public concern. The Doe movants also argue that  
13 producing the IP addresses and logs associated with their email accounts will provide a  
14 rough itinerary of where and with whom they have been for the last nine years, thus  
15 infringing upon their right to associate.

16 Since Chevron filed its original subpoenas, there have been several changes that  
17 affect the scope of its subpoenas. Chevron has withdrawn its request for documents related  
18 to the email address kevinjonheller@gmail.com. Dkt. No. 45, Ex. J. John Wotowicz has  
19 identified himself to Chevron as the owner of the email address john.wotowicz@gmail.com  
20 and has consented to the production of documents in request (B), limited to July 1, 2009

21 <sup>2</sup> The Doe movants are the owners of the following email addresses: cortelyou@gmail.com,  
22 sayjay80@gmail.com, kevinkoenigquito@gmail.com, marialya@gmail.com, coldmtn@gmail.com,  
23 firger@gmail.com, bandawatch@gmail.com, catmongeon@gmail.com,  
24 briansethparker@gmail.com, lupitadeheredia@gmail.com, josephmutti@gmail.com,  
25 drewwoods3@gmail.com, katiafachgomez@gmail.com, tegelsimeon@gmail.com,  
26 lauragarr@gmail.com, richard.clapp@gmail.com, ampage@gmail.com, goldstein.ben@gmail.com,  
27 wilsonaguinda@gmail.com, sara.colon@gmail.com, farihahzaman@gmail.com,  
28 jeremylow@gmail.com, courtneyrwong@gmail.com, jenbilbao3@yahoo.com,  
kshuk22@yahoo.com, eriktmoe66@yahoo.com, drewwoods3@yahoo.com,  
lupitadeheredia@yahoo.com, lore\_gamboa@yahoo.es, and hueyzaactlan@gmail.com. John Rodgers  
(rodgers.john@gmail.com) and Laura Belanger (belanger.laura@gmail.com) have identified  
themselves to Chevron, but join the Doe movants in quashing the subpoenas to the extent that they  
infringe on their associational rights, privacy rights, and are overbroad.

1 through May 31, 2010. Dkt. No. 45, ¶ 7-9. Chevron also offered to limit the date range of  
2 documents sought from briansethparker@gmail.com, but it appears that that offer was not  
3 accepted. *Id.* ¶¶ 10-11. The owner of the email address hueyzactlan@gmail.com joined the  
4 Doe movants in their motion to quash the subpoenas on January 7, 2013. Dkt. No. 53, ¶ 5.  
5 The Doe movants allege that the email addresses fpenafiel1100@yahoo.com,  
6 kshuk22@yahoo.com, sandragrimaldi12@yahoo.com, and rubin.miranda@rocketmail.com  
7 are no longer functional or no longer in use. *Id.* ¶ 6.

8 Another related development is an order by Judge Kaplan denying two motions to  
9 quash subpoenas issued to Microsoft in the Northern District of New York brought by  
10 defendants and three “Does,” who claimed to own email addresses that were the target of  
11 the subpoenas.<sup>3</sup> *Chevron Corp. v. Donziger*, No. 12-mc-00065 LAK (CFH), 2013 WL  
12 3228753, (N.D.N.Y. June 25, 2013). Judge Kaplan denied the Does’ motion to quash  
13 because the Does had not established that they were United States citizens or part of a  
14 community with sufficient connection to the United States that they would be entitled to the  
15 protections of the First Amendment. *Id.* at \*4. Judge Kaplan also found that the three Does  
16 who brought the motion did not have standing to assert the rights of the twenty-seven other  
17 email address owners who had not joined in bringing the motion. *Id.* Regarding  
18 defendants’ motion, Judge Kaplan found they lacked standing because they did not purport  
19 to own any address at issue. *Id.* He also rejected their arguments that disclosure would  
20 reveal privileged information about the defendants’ legal strategy because defendants did  
21 not identify any privileged material that would be revealed or demonstrate that any email  
22 address belonged to any client or member of the legal team. *Id.* The issues decided by  
23 Judge Kaplan are not central to the resolution of the two motions before this Court.

## 24 II. LEGAL STANDARD

25 Federal Rule of Civil Procedure 45 governs discovery of non-parties by subpoena.  
26 The scope of the discovery that can be requested through a subpoena under Rule 45 is the  
27 same as the scope under Rule 34, which in turn is the same as under Rule 26(b). Fed. R.

28 <sup>3</sup> Judge Kaplan sat by designation in the Northern District of New York.

1 Civ. P. 45 Advisory Comm.’s Note (1970) (“[T]he scope of discovery through a subpoena  
2 is the same as that applicable to Rule 34 and other discovery rules.”); Fed. R. Civ. P. 34(a)  
3 (“A party may serve on any other party a request within the scope of Rule 26(b).”). Rule  
4 26(b) allows a party to obtain discovery concerning any nonprivileged matter that is  
5 relevant to any party’s claim or defense. Fed. R. Civ. P. 26(b)(1).

6 A party or attorney responsible for issuing and serving a subpoena must take  
7 reasonable steps to avoid imposing undue burden or expense on a person subject to the  
8 subpoena. Fed. R. Civ. P. 45(c)(1). In turn, the court “must protect a person who is neither  
9 a party nor a party’s officer from significant expense resulting from compliance.” Fed. R.  
10 Civ. P. 45(c)(2)(B)(ii). The court must limit the discovery sought if it is unreasonably  
11 duplicative, if it can be obtained from a source that is more convenient or less burdensome,  
12 or if the burden of producing it outweighs its likely benefit. Fed. R. Civ. P. 26(b)(2)(C).

13 The court may modify or quash a subpoena that subjects a person to undue burden.  
14 Fed. R. Civ. P. 45(c)(3)(A)(iv). On a motion to quash a subpoena, the moving party has the  
15 burden of persuasion under Rule 45(c)(3), but the party issuing the subpoena must  
16 demonstrate the discovery sought is relevant. *EON Corp. IP Holdings, LLC v. T-Mobile*  
17 *USA, Inc.*, No. 12-cv-080082 LHK (PSG), 2012 WL 1980361, at \*1 (N.D. Cal. June 1,  
18 2012).

### 19 III. DISCUSSION

#### 20 A. Defendants and the Doe Movants Have Standing Only to the Extent of Their 21 Personal Stake in the Information Sought.

22 It is axiomatic that in order to have standing to bring a claim in federal court a party  
23 must have a personal stake in the outcome. *See, e.g., Hollingsworth v. Perry*, 133 S. Ct.  
24 2652, 2661-62 (2013). This threshold requirement applies with equal force to discovery  
25 disputes. *Am. Broadcasting Cos., Inc. v. Aereo, Inc.*, No. 12-mc-80300 RMW (PSG), 2013  
26 WL 1508894, at \*2 (N.D. Cal. Apr. 10, 2013). “[A] party moving to quash a non-party  
27 subpoena has standing when the party has a personal right or privilege in the information  
28 sought to be disclosed.” *Knoll, Inc. v. Moderno, Inc.*, No. 12-mc-80193 SI, 2012 WL

1 4466543, at \*2 (N.D. Cal. Sept. 26, 2012). Conversely, “[a] party does not have standing to  
2 quash a subpoena on the basis that the non-party recipient of the subpoena would be  
3 subjected to an undue burden when the non-party has failed to object.” *Kremen v. Cohen*,  
4 No. 11-cv-05411 LHK (HRL), 2012 WL 2277857, at \*3 (N.D. Cal. June 18, 2012).

5 Defendants assert that the subpoenas seek documents related to “one of Steven  
6 Donziger’s primary accounts,” sdonziger@gmail.com, as well as the email of defendant  
7 Javier Piaguaje, javipi002@gmail.com. Dkt. No. 42 at 4. Defendants also claimed  
8 ownership of the email address documents2010@ymail.com when they subpoenaed Yahoo!  
9 for the subscriber information, IP logs, and email content related to that account in  
10 November 2010, December 2010, and January 2011. Dkt. No. 47, Ex. 44. Chevron’s  
11 subpoena to Yahoo! requests information about the email addresses sdonziger@yahoo.com  
12 and sdonziger2@yahoo.com, but defendants do not specifically claim ownership of these  
13 addresses. Defendants have standing to move to quash the subpoenas only with respect to  
14 the email addresses they claim to own.

15 In addition, defendants assert that several of the email addresses belong to “attorneys  
16 who worked with Donziger, ampage@gmail.com, lauragarr@gmail.com,  
17 drewwoods3@gmail.com, and drewwoods3@yahoo.com.” Dkt. No. 42 at 4. Defendants  
18 do not specify, however, whether these are Donziger’s attorneys, in whose communications  
19 he would have a personal stake, or employees, or co-workers, or acquaintances. Defendants  
20 have not shown that they have a personal stake in the materials sought from these email  
21 addresses. Accordingly, they do not have standing to quash the subpoenas for these  
22 addresses.

23 The Doe movants assert that they own thirty-two of the subpoenaed email addresses.  
24 Dkt. No. 43-2 at 2; Dkt. No. 43 at 12 n.5; Dkt. No. 53. Ownership of the email addresses  
25 gives the Doe movants a personal stake in the outcome of this dispute, and therefore  
26 standing to quash the subpoenas for those thirty-two email addresses.

27 The Doe movants also assert, however, that they have third-party standing to quash  
28 the subpoenas for the documents pertaining to the remaining email addresses that belong to

1 non-parties. Dkt. No. 52 at 8-10. There is a limited exception to the standing doctrine  
2 which allows a party to assert the rights of others where “the party asserting the right has a  
3 close relationship with the person who possesses the right,” and where “there is a hindrance  
4 to the possessor’s ability to protect his own interests.” *Kowalski v. Tesmer*, 543 U.S. 125,  
5 130 (2004). Both elements must be present. *Id.* The Doe movants argue that this  
6 prudential test should be relaxed in light of the impact of the subpoenas on the non-parties’  
7 First Amendment rights. *See Sec. of State of Md. v. Joseph H. Munson, Co., Inc.*, 467 U.S.  
8 947, 956-57 (1984) (relaxing prudential requirements of third-party standing where societal  
9 interest in free and unfettered speech outweighed concern that constitutional issues should  
10 be avoided when possible, and allowing third-party to challenge allegedly overbroad  
11 statute). But, a facial challenge to the chilling effect of a statute brought by a third party is  
12 not analogous to the Doe movants’ motion to quash Chevron’s subpoenas. Although the  
13 Doe movants assert First Amendment privileges in opposition to the subpoenas, their  
14 arguments do not warrant relaxing the prudential test for standing. Accordingly, the Court  
15 limits its analysis to whether a “close relationship” exists between the Doe movants and the  
16 other email address owners, and whether the other email address owners face a “hindrance”  
17 in asserting their own rights. *Kowalski*, 543 U.S. at 130.

18 Beyond subscribing to the same email providers, plaintiffs assert no relationship, let  
19 alone a “close relationship,” between the Doe movants and the other email address owners.  
20 This shortcoming is sufficient to defeat their assertion of third-party standing. The Doe  
21 movants do, however, point to several logistical concerns which suggest that the other email  
22 address owners cannot assert their rights or are hindered in their ability to do so. For  
23 example, the Doe movants suggest that the others may not have received the email that  
24 Google and Yahoo! sent their subscribers regarding the subpoenas, or that they may not  
25 read English and so may be functionally unaware of the subpoenas, or the subscriber may  
26 not actively check or use the subpoenaed account. All of these reasons could possibly pose  
27 a hurdle, but it is the same hurdle that the Doe movants managed to overcome. In light of  
28 the fact that half of those whose emails are affected are exercising the right to move to

1 quash the subpoenas, the Court cannot assume that those who did not join in the motion or  
2 make a motion of their own did so because it was too difficult. Because the Doe movants  
3 have not shown a close relationship or a hindrance, they do not have standing to move to  
4 quash the subpoenas for documents related to email addresses other than their own.

5 **B. Chevron's Requests Are Proper Under the Stored Communications Act.**

6 The Stored Communications Act prohibits any "person or entity providing an  
7 electronic communication service to the public" from "knowingly divulg[ing] to any person  
8 or entity the contents of a communication while in electronic storage by that service."

9 18 U.S.C. § 2702(a). Google and Yahoo!, as ISPs and email service providers, are  
10 electronic communication service providers. *Quon v. Arch Wireless Operating Co., Inc.*,  
11 529 F.3d 892, 902 (9th Cir. 2008), *rev'd on other grounds*, *City of Ontario v. Quon*, 130 S.  
12 Ct. 2619 (2010). An electronic communication service provider may, however, "divulge a  
13 record or other information pertaining to a subscriber to or customer of such service." *Id.*  
14 § 2702(c). Among the records electronic communication service providers may reveal are  
15 the subscriber's "name, address, . . . records of session times and durations, telephone or  
16 instrument number or other subscriber number or identity, including any temporarily  
17 assigned network address." *Id.* § 2703(c)(2); § 2702(c)(1) (allowing disclosure of records  
18 as authorized under § 2703). Such records "are voluntarily turned over in order to direct the  
19 [ISP's] servers," and "do not necessarily reveal any more about the underlying contents of  
20 communication." *United States v. Forrester*, 512 F.3d 500, 503 (9th Cir. 2008); *see also*  
21 *Obodai v. Indeed, Inc.*, No. 13-mc-80027 EMC (KAW), 2013 WL 1191267, at \*3 (N.D.  
22 Cal. Mar. 21, 2013) (finding list of IP addresses that accessed gmail account, dates and  
23 times of access, were not content under the SCA and ordering discovery produced in  
24 response to civil subpoena).

25 Google's privacy policy states that it collects information given to it by a subscriber,  
26 such as the subscriber's name, email address, and phone number, and that it collects other  
27 information related to a subscriber's use of Google, such as device-specific information,  
28 mobile network information, IP addresses, cookies that uniquely identify a user's browser

1 or Google account, and location information. Dkt. No. 47, Ex. 46 at 2-4. Similarly, Yahoo!  
 2 keeps records of a subscriber’s information given at registration, such as the user’s name,  
 3 email address, date of birth, gender, zip code, occupation, industry, and personal interests.  
 4 Dkt. No. 47, Ex. 47. Yahoo! also records a user’s IP address, cookie information, the  
 5 software and hardware attributes of the connecting computer, and the page the user  
 6 requests. *Id.* Yahoo!’s privacy policy states explicitly that “[w]hen you register with  
 7 Yahoo! and sign in to our services, you are not anonymous to us.” *Id.*

8 Chevron’s subpoenas do not seek the contents of any subscriber’s emails. It only  
 9 seeks identifying information associated with the subscriber as well as the usage  
 10 information of each account for certain time periods. Google and Yahoo! already maintain  
 11 such records for their users. The Stored Communications Act allows Google and Yahoo! to  
 12 reveal such records. 18 U.S.C. § 2702(c)(6) (An electronic communication service provider  
 13 “may divulge a record or other information pertaining to a subscriber to or customer of such  
 14 service (not including the contents of communications . . . ) . . . to any person other than a  
 15 government entity.”).<sup>4</sup>

### 16 **C. The Subpoenas Do Not Infringe on the Doe Movants’ First Amendment Rights.**

17 The Doe movants assert that the subpoenas infringe on their First Amendment rights  
 18 to speak anonymously and to associate freely. Defendants note in a footnote that the  
 19 subpoenas “may” violate First Amendment rights by seeking the identity of anonymous  
 20 speakers. Dkt. No. 42 at 10 n.8. Because defendants are not anonymous to Chevron, and  
 21 defendants do not raise a First Amendment argument for quashing the subpoenas for  
 22 documents related to their own emails, the Court considers the implications of the First  
 23 Amendment with respect to the Doe movants’ email addresses only.

#### 24 **1. IP logs are not speech, and the Doe movants are not anonymous.**

25 The Doe movants contend that Chevron’s subpoenas of the subscriber information  
 26 associated with their email accounts, particularly their name, violates their right to

---

27 <sup>4</sup> The Stored Communications Act defines the term “person” to include “partnership, association,  
 28 joint stock company, trust, or corporation.” 18 U.S.C. §§ 2510, 2711(1).

1 anonymous speech under the First Amendment. Dkt. No. 43 at 19. In the Ninth Circuit,  
2 “the nature of the speech should be a driving force in choosing a standard by which to  
3 balance the rights of anonymous speakers in discovery disputes.” *In re Anonymous Online*  
4 *Speakers*, 661 F.3d at 1168, 1177 (9th Cir. 2011). Here, as discussed above, Chevron’s  
5 subpoenas do not seek the content of any electronic communication. They seek the  
6 identifying information of the email address owner, as well as information about which  
7 computers logged into the email addresses from which internet connections. The Doe  
8 movants cite no case that analogizes IP addresses and logs or email addresses to protected  
9 speech.

10 Other cases to have considered the right to anonymous, online speech have had  
11 drastically different facts. For example, in *In re Anonymous Online Speakers* the Ninth  
12 Circuit considered the First Amendment protections afforded to several statements made  
13 anonymously and online about a company’s business practices. *Id.* at 1172-73. The  
14 company already knew the content of the speech, which it alleged was defamatory; it sought  
15 to subpoena the identity of the speakers. *Id.* at 1173. Ultimately, the Ninth Circuit affirmed  
16 the district court’s decision to apply a summary judgment standard to the subpoenaing  
17 party’s claims before ordering the identities disclosed. *Id.* at 1176.

18 Similarly, in *Doe v. 2TheMart.com*, 140 F. Supp. 2d 1088, 1090 (W.D. Wash. 2001),  
19 on which the Doe movants rely heavily, a party issued a subpoena to an online message  
20 board host for “all identifying information and documents, including but not limited to,  
21 computerized or computer stored records and logs, *electronic mail (E-mail)*, and *postings to*  
22 *your online message boards*” related to twenty-three users. *Id.* (emphasis added). The  
23 party issuing the subpoena alleged that users of the message board manipulated stock prices  
24 through their posts, which were misleading and defamatory. *Id.* at 1095. The subpoenaing  
25 party was aware of the content of the online messages that formed the basis of its claim, but  
26 also sought additional content from the message board host. *Id.* at 1090. In deciding to  
27 quash the subpoena, the district court applied a four-part test that “provide[d] a flexible  
28 framework for balancing the First Amendment rights of anonymous *speakers* with the right

1 of civil litigants to protect their interests through the litigation discovery process.” *Id.* at  
2 1095 (emphasis added).

3 Conversely, in *Mount Hope Church v. Bash Back!*, No. 11-cv-00536 RAJ, *rev’d on*  
4 *other grounds*, 705 F.3d 418 (9th Cir. 2012), the district court for the Western District of  
5 Washington considered a subpoena to an ISP that sought the names of seven anonymous  
6 email account holders that had received an email about planning an LGBT demonstration at  
7 a church. *Id.* at 2. The court concluded that whether the anonymous speaker’s online  
8 speech formed the basis of a claim was not dispositive to the issue of whether he could be  
9 identified because “[w]hether the identity is sought because the user’s online conduct is  
10 actionable, or because the user may have discoverable information related to action: either  
11 way, the user’s ability to anonymously participate in online activities is threatened.” *Id.* at  
12 3. Applying a hybrid balancing test, the court ultimately concluded, however, that Mount  
13 Hope’s need for discovery outweighed the user’s right to anonymity. *Id.* at 5.

14 Comparing this case law with the facts at hand, the Court finds that the Doe movants  
15 have not shown the circumstances to be the same as in *Anonymous Online Speakers*,  
16 *2TheMart.com*, or *Mount Hope*. First, the Court is not convinced that the subject of the  
17 subpoenas is protected speech. Unlike in *Anonymous Online Speakers* and *2TheMart.com*,  
18 Chevron is not seeking the content of emails or a link between the Doe movants’ identities  
19 and particular statements made by them. Unlike in *Mount Hope*, Chevron is not seeking to  
20 link the identity of the email subscribers with the receipt of particular statements. In light of  
21 these factual differences, the Court cannot conclude that any right to anonymous speech is  
22 implicated by Chevron’s subpoenas for IP logs. And the Court is not inclined to find, as the  
23 district court in *Mount Hope* did, that the exercise of a civil litigant’s subpoena power will  
24 encroach upon an online user’s activities where no speech is at issue.

25 Last, the Doe movants have also not satisfactorily shown that their actions were  
26 anonymous. Several of their email addresses contain their first and last names, or their first  
27 initial and last name, or some other combination of identifying information. The owners of  
28 josephmutti@gmail.com and limcas2002@yahoo.com, two email addresses the Doe

1 movants seeks to protect, have had direct contact with Chevron’s counsel and identified  
2 themselves as the owners of their respective addresses. Dkt. No. 45 ¶¶ 6, 13. The owner of  
3 lauragarr@gmail.com is identified by name and connected with her email address and the  
4 underlying litigation in another court’s order. Dkt. No. 47, Ex. 31. Although the Doe  
5 movants may believe that using their email addresses will protect their identities, that belief  
6 is simply not reflected by the reality of the world we live in. Email addresses are labels we  
7 voluntarily present to the outside world, through which we allow the world to contact us,  
8 and in that way identify us.

9 With no speech and with such varying degrees of anonymity at issue, the Court finds  
10 that the Doe movants have failed to show that there is an exercise of anonymous speech that  
11 Chevron’s subpoenas could chill.

12 **2. The subpoenas do not seek the Doe movants’ expressive activity.**

13 “[T]he right to engage in activities protected by the First Amendment implies a  
14 corresponding right to associate with others in pursuit of a wide variety of political, social,  
15 economic, educational, religious, and cultural ends.” *Bd. of Dirs. of Rotary Int’l v. Rotary*  
16 *Club of Duarte*, 481 U.S. 537, 548 (1987) (internal citation and quotation marks omitted).  
17 The Doe movants argue that the subpoenaed information will enable Chevron “to identify  
18 and track the locations of [the Doe] movants over time, as well as learn when [they] likely  
19 met with other people.” Dkt. No. 43 at 15. They assert that such tracking infringes upon  
20 and will chill their First Amendment right to associate. *Id.* at 25.

21 In *Perry v. Schwarzenegger*, 591 F.3d 1126, 1139-41 (9th Cir. 2009), the Ninth  
22 Circuit established a two-part test for analyzing claims of First Amendment associational  
23 privilege in a discovery dispute. *Id.* at 1140. First, the party asserting the privilege must  
24 make “a prima facie showing of arguable First Amendment infringement.” *Id.* “This prima  
25 facie showing requires [a party] to demonstrate that enforcement of the discovery requests  
26 will result in (1) harassment, membership withdrawal, or discouragement of new members,  
27 or (2) other consequences which objectively suggest an impact on, or chilling of, the  
28 members’ associational rights.” *Id.* at 1140 (internal citation and quotation marks omitted).

1 This prima facie showing “turns not on the type of information sought, but on whether  
2 disclosure of the information will have a deterrent effect on the exercise of protected  
3 activities.” *Id.* at 1141; *Chevron Corp. v. Donziger*, 2013 WL 1402727, at \*2-\*3 (quashing  
4 Chevron’s subpoena to advocacy group which showed that disclosure of campaign  
5 documents would chill activity of organizers and prevent others from joining in cause).

6 With this test in mind, the Court considers the “protected activity” that the Doe  
7 movants claim to engage in. “To determine whether a group is protected by the First  
8 Amendment’s expressive associational right, we must determine whether the group engages  
9 in ‘expressive association.’” *Boy Scouts of Am. v. Dale*, 530 U.S. 640, 648 (2000).<sup>5</sup>

10 The Doe movants acknowledge that “members of an association may assert a  
11 qualified First Amendment privilege in associational information.” Dkt. No. 43 at 28  
12 (emphasis added). They also assert that Chevron’s litigation tactics have resulted in  
13 “membership withdrawal,” but they do not ever specify what group the members have  
14 withdrawn from. The Doe movants do not claim to form or be part of one group. On the  
15 contrary, they challenge the legality of Chevron’s subpoenas for being overbroad and argue  
16 that Chevron has cast such a wide net that it has ensnared Google and Yahoo! subscribers  
17 who are in no way affiliated with this litigation or with Donziger or with environmental  
18 advocacy. Dkt. No. 43 at 13-14. This significantly undercuts their claim to protection  
19 under the First Amendment. *See Anderson v. Hale*, No. 00-cv-02021 MCA, 2001 WL  
20 503045, at \*6 (N.D. Ill. May 10, 2001) (denying motion to quash subpoena seeking  
21 identifying information, activity logs, and address books associated with email accounts in  
22 part because subpoena did not target religious group exclusively and would implicate others  
23 not affiliated with organization).

24  
25 <sup>5</sup> In addition to the right to associate for the purpose of engaging in expressive activities, the First  
26 Amendment “protect[s] certain intimate human relationships,” *Freeman v. City of Santa Ana*, 68  
27 F.3d 1180, 1188 (9th Cir.1995), “including family relationships, that presuppose deep attachments  
28 and commitments to the necessarily few other individuals with whom one shares not only a special  
community of thoughts, experiences, and beliefs but also distinctively personal aspects of one’s  
life.” *Rotary Club of Duarte*, 481 U.S. 537 at 545. The Doe movants do not argue that Chevron’s  
subpoenas have any impact on their right to intimate association.

1 The declarations of the Doe movants also state that their associational activities “more  
2 generally” will be chilled if they are forced to respond to the subpoenas. Dkt. No. 43 at 29.  
3 But the constitution does not “recognize[] a generalized right of ‘social association.’” *City*  
4 *of Dallas v. Stanglin*, 490 U.S. 19, 25 (1989). “It is possible to find some kernel of  
5 expression in almost every activity a person undertakes . . . but such a kernel is not  
6 sufficient to bring the activity within the protection of the First Amendment.” *Id.* Rather,  
7 there must be “expressive association” by a “group[] organized to engage in speech.” *Id.*

8 As the Court has already discussed, the Doe movants have not shown that they are  
9 engaging in any protected speech or expression by logging into their email accounts.

10 Without any claim to expressive association, the Doe movants’ claims that Chevron must  
11 meet a higher relevance standard in order to effect its subpoenas fails.

12 **D. There Is No Recognized Privacy Interest in IP Logs and Account Information.**

13 The Doe movants argue that article 1, section 1 of the California constitution protects  
14 against invasions of privacy and requires that Chevron’s need for discovery be balanced  
15 against their privacy interests. Dkt. No. 43 at 32. Unlike its federal counterpart, the right of  
16 privacy under article 1, section 1 of the California constitution applies to private action, as  
17 well as state action. *Hill v. Nat’l Collegiate Athletic Assn.*, 7 Cal. 4th 1, 38 (Cal. 1994).  
18 California courts also interpret the right of privacy in article 1, section 1 of the California  
19 constitution as encompassing rights that the Fourth Amendment does not. *See Am. Acad. of*  
20 *Pediatrics v. Lungren*, 16 Cal. 4th. 307, 327-28 (Cal. 1997) (collecting cases and listing  
21 examples such as the right to live with unrelated persons and women’s right to choose  
22 whether to continue a pregnancy).

23 The Doe movants cite no California case addressing the privacy interest under article  
24 1, section 1 in subscriber information and IP logs associated with email addresses. There  
25 appears to be no California case law on this point. But, in *Willard v. AT & T Commc’ns of*  
26 *Cal., Inc.*, 204 Cal. App. 4th 53, 62 (Cal. Ct. App. 2012), *review denied* (June 20, 2012), the  
27 California Court of Appeal determined, without deciding “whether the privacy of one’s  
28 telephone listing is a legally protected privacy interest,” that no violation of the right to

1 privacy occurred because “plaintiffs did not expect privacy in the circumstances, as they  
2 knew their listing would be public unless they paid a fee to opt out of being listed.” And, in  
3 *Folgelstrom v. Lamps Plus, Inc.*, 195 Cal. App. 4th 986, 992 (Cal. Ct. App. 2011), the Court  
4 of Appeal concluded that a company’s “obtaining plaintiff’s address without his knowledge  
5 or permission, and using it to mail him coupons and other advertisements” was “not an  
6 egregious breach of social norms, but routine commercial behavior.” Similarly, the Doe  
7 movants accepted the terms of Google’s and Yahoo!’s privacy policies, which indicated that  
8 the ISPs collect identifying information and log IP addresses and share information in  
9 response to a subpoena, court order, or legal process. *See* Dkt. No. 47, Ex. 46 (“Our  
10 Privacy Policy applies to all of the services offered by Google Inc. and its affiliates.” “As  
11 you use our services, we want you to be clear how we’re using information and the ways in  
12 which you can protect your privacy.”); Dkt. No. 47, Ex. 46 (“This policy covers how  
13 Yahoo! treats personal information that Yahoo! collects and receives, including information  
14 related to your past use of Yahoo! products and services.”). In addition, this information is  
15 vital to the commercial enterprises of the ISPs, which provide the service of connecting  
16 users to the internet and routing their messages to other IP addresses. Thus, existing  
17 California cases suggest there is no privacy interest in the subscriber and usage information  
18 associated with email addresses.

19 Federal courts to have addressed whether disclosure of identifying information or  
20 routing information, such as device numbers, violates the privacy clause of the California  
21 constitution have concluded it does not. *Low v. LinkedIn Corp.*, 900 F. Supp. 2d 1010,  
22 1025 (N.D. Cal. 2012) (finding that disclosure to third parties of user code and URL of  
23 profiles the user viewed did not violate article 1, section 1); *In re iPhone Application Litig.*,  
24 844 F.Supp.2d 1040, 1063 (N.D. Cal. 2012) (holding that the disclosure to third parties of  
25 unique device identifier number, personal data, and geolocation information did not  
26 constitute an egregious breach of privacy under article 1, section 1).

27 Federal courts have also considered the privacy interests in email subscriber and  
28 usage information under the Fourth Amendment. In the context of a search or seizure,

1 article 1, section 1 of the California Constitution does not establish a broader protection  
2 than that provided by the Fourth Amendment. *In re York*, 9 Cal. 4th 1133, 1149 (Cal. 1995)  
3 (analyzing petitioner’s claim of invasion of privacy under article 1, section 1 of the  
4 California constitution under Fourth Amendment framework); *see also Sanchez v. Cnty. of*  
5 *San Diego*, 464 F.3d 916, 930 (9th Cir. 2006) (same). In fact, a claim under article 1,  
6 section 1 requires a plaintiff to show the privacy invasion is serious, thus setting a higher  
7 threshold than for a federal claim under the Fourth Amendment. *Norman-Bloodsaw v.*  
8 *Lawrence Berkeley Lab.*, 135 F.3d 1260, 1271 (9th Cir. 1998).

9       When analyzing the reasonableness of government requests for subscriber and usage  
10 information, the Ninth Circuit held unequivocally that “e-mail and Internet users have no  
11 expectation of privacy in the to/from addresses of their messages or the IP addresses of the  
12 websites they visit because they should know that this information is provided to and used  
13 by Internet service providers for the specific purpose of directing the routing of information.  
14 Like telephone numbers, which provide instructions to the ‘switching equipment that  
15 processed those numbers,’ e-mail to/from addresses and IP addresses are not merely  
16 passively conveyed through third party equipment, but rather are voluntarily turned over in  
17 order to direct the third party’s servers.” *Forrester*, 512 F.3d at 503 (quoting *Smith v.*  
18 *Maryland*, 442 U.S. 735, 744 (1979)). The Court explained that email, like a letter, “has an  
19 outside address ‘visible’ to the third-party carriers.” *Id.* at 511. And, “devices that obtain  
20 address information also inevitably reveal the amount of information coming and going”  
21 and in so doing do not run afoul of the Fourth Amendment. *Id.*

22       Under this same rationale, the Court must conclude that the Doe movants have no  
23 privacy interest in the subscriber information, IP addresses, and IP logs associated with their  
24 email accounts because “a person has no legitimate expectation of privacy in information he  
25 voluntarily turns over to third parties.” *Id.* at 509 (quoting *Smith*, 442 U.S. at 743-44). As a  
26 condition of using Google and Yahoo!’s email service, the Doe movants voluntarily  
27 provided their names, addresses, and other identifying information. This voluntary  
28 production to a third party eviscerates any subjective expectation of privacy the Doe

1 movants might harbor. In addition, the IP address and IP logs associated with their email  
2 accounts are the addresses visible to the outside world associated with their accounts. The  
3 IP address is the routing information that the Doe movants provide to the ISPs when they  
4 choose to connect a computer to their email account, send or receive an email, or even visit  
5 a website. There is no reasonable expectation of privacy in the routing and identifying  
6 information given to the ISPs to connect to and relay messages on the internet. *Forrester*,  
7 512 F.3d at 503, 509. The Doe movants' motion to quash Chevron's subpoenas for  
8 invading their rights to privacy under article 1, section 1 of the California constitution fail.

9 **E. Chevron's Subpoenas Seek Relevant Information But Should Be Narrowed.**

10 Both defendants and the Doe movants move to quash or limit Chevron's subpoenas  
11 arguing that they are overbroad and seek irrelevant information. Although, "[a] party does  
12 not have standing to quash a subpoena on the basis that the non-party recipient of the  
13 subpoena would be subjected to an undue burden when the non-party has failed to object,"  
14 *Kremen*, 2012 WL 2277857, at \*3, the Court has an independent obligation "to avoid  
15 imposing undue burden or expense on a person subject to the subpoena," Fed. R. Civ. P.  
16 45(c)(1). In order for materials to be discoverable under Rule 45, they must not be  
17 privileged and must be relevant to a party's claim or defense. Fed. R. Civ. P. 26(b)(1); Fed.  
18 R. Civ. P. 45 Advisory Comm.'s Note (1970). The party issuing the subpoena must  
19 demonstrate the discovery sought is relevant. *EON Corp. IP Holdings*, 2012 WL 1980361,  
20 at \*1. And, the court must limit the extent of the discovery sought if it is unreasonably  
21 duplicative, if it can be obtained from a source that is more convenient or less burdensome,  
22 or if the burden of producing it outweighs its likely benefit. Fed. R. Civ. P. 26(b)(2)(C).

23 The crux of Chevron's claim in the underlying dispute against defendants is that  
24 defendants conspired to and succeeded in securing an \$18.2 billion fraudulent judgment  
25 against Chevron in Ecuador. Chevron alleges that the Doe movants were "intimately  
26 involved with the fraud," by "manag[ing] legal and public relations strategies." Dkt. No. 46  
27 at 7. Chevron states that these "email accounts [were] identified principally through review  
28 of documents recovered from an image of Donziger's hard drive." *Id.* at 11. Chevron

1 claims that “the subpoenaed information will provide evidence about the structure and  
2 management” of defendants’ alleged fraud scheme, confirm that acts took place in the  
3 United States, and establish how the fraud, such as the writing of expert reports and the  
4 Ecuadorian judgment, was executed. *Id.* at 7.

5 Chevron states that it is willing to narrow the timeframe of its subpoenas for any  
6 account owner who confirms the timeframe during which he communicated with  
7 defendants. Dkt. No. 45 ¶ 16. Chevron also offered to withdraw its subpoena for  
8 identifying information if an account owner confirmed in writing his identity and exclusive  
9 control over the account at issue. *Id.* It appears that only one individual accepted  
10 Chevron’s offer, although as noted, several others have confirmed that they own particular  
11 addresses.

12 Chevron’s subpoenas seek documents from 2003 to the present. The subpoenas were  
13 issued on September 7, 2012, so that is what the Court considers as the “present.”  
14 Defendants and the Doe movants argue that nine years of IP logs associated with their email  
15 addresses is simply overbroad. They rely in large part on the district court’s analysis in  
16 *Moon v. SCP Pool Corp.*, 232 F.R.D. 633, 637 (C.D. Cal. 2005), in which the court found  
17 that a subpoena to a third party for ten years of business records was overbroad. In *Moon*,  
18 the quashed subpoena was overbroad because it was not limited to the three-year period in  
19 which the allegedly breached contract gave plaintiff an exclusive right to be defendant’s  
20 “broker” of winter pool covers. *Id.* There is nothing inherently overbroad about a  
21 discovery request that spans multiple years.

22 Here, Chevron seeks materials that would show fraud during the pendency of the  
23 Lago Agrio litigation. The litigation against Chevron in Ecuador was filed by the Lago  
24 Agrio plaintiffs in 2003. The Lago Agrio court issued its judgment against Chevron on  
25 February 14, 2011. Because Chevron seeks these materials in order to piece together  
26 defendants’ alleged fraud that resulted in that judgment against Chevron, the Court  
27 concludes that Chevron’s subpoenas for information beyond February 14, 2011 are unlikely  
28 to reveal relevant evidence of the alleged conspiracy. The Court suspects that the beginning

1 date could also be more closely tailored to defendants’ alleged actions, for example, starting  
2 with the filing of a particular environmental report or the launch of a public relations  
3 campaign. But, because neither party has presented the Court with the facts necessary to so  
4 limit the subpoenas, it will not do so arbitrarily.

5 Defendants argue that Chevron has failed to limit its requests by “purpose or subject  
6 matter of . . . usage.” Dkt. No. 42 at 7. But that is exactly the point. Chevron is not, at this  
7 time, entitled to and will not receive the content of any emails. Chevron is only seeking IP  
8 logs and subscriber information. The Court also notes that Chevron has offered to curtail  
9 the subpoenas for any account owner who will attest to the timeframe of his involvement, or  
10 lack thereof, with the defendants or the Ecuador litigation. In the absence of any more  
11 limited timeframe based upon, for example, the Doe movants’ interactions with defendants  
12 or involvement with any party or this suit, Chevron’s subpoenas to Google and Yahoo! for  
13 documents spanning from the filing of the Lago Agrio lawsuit to the judgment in that case  
14 is not overbroad.

15 Nevertheless, the scope of Chevron’s subpoenas must be limited further where “the  
16 discovery sought is unreasonably cumulative or duplicative, or can be obtained from some  
17 other source that is more convenient, less burdensome, or less expensive; [or where] the  
18 party seeking discovery has had ample opportunity to obtain the information by discovery  
19 in the action.” Fed. R. Civ. P. 26(b)(2)(C)(i)-(ii). The Court thus turns to the individual  
20 email addresses.

### 21 **1. Defendants**

22 Chevron seeks discovery related to the email addresses of defendants, including  
23 Steven Donziger. But Chevron has already conducted immense amounts of discovery in  
24 this litigation focused on defendants. It has access to an image of Donziger’s hard drive.  
25 Dkt. No. 46 at 11. Donziger was the subject of a discovery proceeding under 28 U.S.C.  
26 § 1782 and was deposed for sixteen days. Dkt. No. 42 at 9. Chevron has also requested the  
27 information it seeks from the ISPs from Javier Piaguaje directly. Dkt. No. 42 at 8. Not  
28 only are defendants the more convenient source than the ISPs from which to obtain

1 information related to their email accounts, but Chevron has had ample opportunity to do  
2 so. Nevertheless, Chevron argues that defendants have not produced discovery in response  
3 to several court orders, an argument to which defendants do not respond. Although a  
4 subpoena to Google and Yahoo! imposes some burden on them, neither ISP has objected to  
5 it. Therefore, Google and Yahoo! must produce the requested documents related to  
6 sdonziger@gmail.com, javipi002@gmail.com, and documents2010@ymail.com.

7 **2. The Doe movants**

8 **a. cortelyou@gmail.com**

9 The owner of cortelyou@gmail.com declares that he “was involved in the litigation  
10 against Chevron as a volunteer legal intern for a brief period of time in the summer of  
11 2007.” Dkt. No. 43-3 ¶ 5. Since that time, the owner has not participated in the litigation.  
12 *Id.* The email account was opened in 2005. *Id.* ¶ 6.

13 In support of its subpoena, Chevron submitted two emails from Donziger to  
14 cortelyou@gmail.com from February 2007 and June 2007, asking cortelyou@gmail.com to  
15 research Chevron’s spending, investments, and “to see where they are most politically  
16 vulnerable to pressure in other countries.” Dkt. No. 47, Exs. 18, 19. These emails show the  
17 email address owner’s involvement with Donziger in 2007 and the relevance of the  
18 requested information to Chevron’s claims against defendants. These emails also contradict  
19 the declaration of cortelyou@gmail.com, which leaves open the possibility that  
20 cortelyou@gmail.com’s involvement with defendants is more extensive still. Google must  
21 produce the requested documents about cortelyou@gmail.com from the creation of the  
22 address through February 14, 2011.

23 **b. firger@gmail.com**

24 The owner of firger@gmail.com declares that he “was involved in the litigation  
25 against Chevron in Ecuador and related activism campaign intermittently between 2006 and  
26 2009, including as a volunteer legal [sic] for a brief period of time in the summer of 2007.”  
27 Dkt. No. 43-4, ¶ 5. Since 2007, firger@gmail.com has “not been connected to the litigation  
28 or political campaign.” *Id.*

1 In support of the relevance of this email address and its IP logs, Chevron submitted  
2 two emails from Donziger to firger@gmail.com from February 2007 and June 2007, asking  
3 firger@gmail.com to research Chevron's spending, investments, and "to see where they are  
4 most politically vulnerable to pressure in other countries." Dkt. No. 47, Exs. 18, 19. These  
5 emails corroborate firger@gmail.com's declaration. Google must produce the requested  
6 documents about firger@gmail.com from January 1, 2006 through December 31, 2009.

7 **c. tegelsimeon@gmail.com**

8 The owner of tegelsimeon@gmail.com is a journalist and worked for a non-profit  
9 advocacy organization from 2005 to 2008. Dkt. No. 43-5, ¶ 4. The owner of  
10 tegelsimeon@gmail.com "was involved in an advocacy campaign concerning the  
11 environmental impact of Chevron's former oil concession in the Amazon for around three  
12 years, ending in 2008. . . [and although he] was never directly involved in the litigation  
13 against Chevron in Ecuador, [he] performed advocacy on behalf of the communities  
14 affected by the activities giving rise to that litigation." *Id.* ¶ 5. Tegelsimeon@gmail.com  
15 has not been active in the advocacy campaign related to Chevron "for some time." *Id.* ¶ 9.  
16 The email account tegelsimeon@gmail.com was created "around 2006," and stopped being  
17 used in the fall of 2008. *Id.* ¶ 6.

18 Chevron submits two emails dating from April 2008 from tegelsimeon@gmail.com to  
19 Donziger in support of its subpoena. The emails show that tegelsimeon@gmail.com was  
20 the "Director of Communications" of Amazon Watch, a non-party that has campaigned  
21 extensively to raise awareness of the environmental situation in Ecuador as it relates to  
22 Chevron. Dkt. No. 47, Exs. 20, 21. These emails corroborate the declaration of  
23 tegelsimeon@gmail.com. But the emails also show that tegelsimeon@gmail.com  
24 communicated frequently with Donziger about press releases, letters to the editor, and  
25 public relations pieces about the environmental dispute, suggesting that the requested  
26 documents may lead to the discovery of admissible evidence. Accordingly, Google must  
27 produce the documents relating to tegelsimeon@gmail.com from the creation of the email  
28 account through December 31, 2008.

1           **d.     kevinkoenigquito@gmail.com**

2           The owner of kevinkoenigquito@gmail.com is based in Ecuador, works at a non-  
3 profit organization, and has been involved for several years in “an activism campaign that  
4 encourages Chevron to remediate the environmental impact of its former oil concession in  
5 the Amazon.” Dkt. No. 43-6, ¶¶ 4, 8. The email account was opened in June 2008. *Id.* ¶ 5.  
6 Kevinkoenigquito@gmail.com asserts that this campaign “has no direct relationship to the  
7 litigation against Chevron in Ecuador” and that kevinkoenigquito@gmail.com has “never  
8 been directly involved in that litigation.” *Id.* ¶ 4. In his declaration,  
9 kevinkoenigquito@gmail.com states that he fears that the subpoenaed information would  
10 “allow [Chevron] to track [his] physical movements” and “would exacerbate the risk of  
11 intimidation.” *Id.* ¶ 9. The declarant is also concerned that the subpoenaed information  
12 would “become public” or “fall into the hands of the wrong people,” and fears he will be  
13 harassed “should Chevron gain access to [his] physical locations.” *Id.* ¶¶ 10-13.

14           Chevron submits three emails between kevinkoenigquito@gmail.com and Donziger  
15 from August and September 2008 regarding press releases, shareholder meetings, and an  
16 interview with a reporter. Dkt. No. 47, Exs. 22, 23, 29. In one of these emails, Donziger  
17 instructs kevinkoenigquito@gmail.com not to tell a reporter that they “cooperate other  
18 than occasional communication,” or that kevinkoenigquito@gmail.com “work[s] out of  
19 our office,” and generally to distance “AW”—presumably Amazon Watch, where  
20 kevinkoenigquito@gmail.com is the Ecuador Program Coordinator—from the lawsuit.  
21 Dkt. No. 47, Ex. 29. These exchanges between kevinkoenigquito@gmail.com and  
22 Donziger are sufficient to show that discovery of the subpoenaed information may lead to  
23 admissible evidence. Google must produce the documents relating to  
24 kevinkoenigquito@gmail.com from the creation of the email account through February 14,  
25 2011.

26           The Court takes seriously, however, the declarant’s fears and concerns. First, to  
27 clarify, the subpoena will not implement any sort of tracking device; it seeks only historical  
28 data up to the date of the Ecuadorian judgment on February 14, 2011. The declarant’s

1 current whereabouts and IP addresses are not at issue. Second, a protective order will  
2 ensure that this information does not “fall into the wrong hands.” Counsel for plaintiff,  
3 defendants, and the Doe movants must meet and confer and propose the terms of a  
4 protective order by September 5, 2013, so that the subpoenaed information remains  
5 confidential.

6 **e. ampage@gmail.com**

7 The owner of ampage@gmail.com is currently the subject of a discovery proceeding  
8 brought under 28 U.S.C. § 1782 in the District of Maryland. Dkt. No. 58. In that  
9 proceeding, Chevron seeks “all documents related to any electronic repositories of  
10 documents used . . . in connection with the Chevron litigations and the Complaint . . .  
11 including . . . email accounts.” *Chevron Corp. v. Page*, No. 11-cv-00395 RWT (D. Md.),  
12 Dkt. No. 55-1 at 21. Because Chevron is currently pursuing a more direct means of  
13 accessing discovery related to the email account ampage@gmail.com, it may not also  
14 request that information from the third party ISPs. The Court quashes the subpoena for  
15 documents related to the email address ampage@gmail.com.

16 **f. erikmoe66@yahoo.com**

17 The owner of erikmoe66@yahoo.com declares he has been a “personal friend of  
18 Steven Donziger for over thirty years.” Dkt. No. 43-8 ¶ 4. The declarant states that he  
19 considered getting involved with the Chevron litigation “for several months,” but decided  
20 against it in February 2011. *Id.* ¶ 5.

21 Chevron has submitted emails between Donziger and erikmoe66@yahoo.com  
22 regarding funding. Dkt. No. 47, Exs. 24-26. The owner of erikmoe66@yahoo.com was  
23 formerly a corporate finance lawyer. Dkt. No. 43-8 ¶ 4. One email dated September 15,  
24 2010 from erikmoe66@yahoo.com to Donziger states that securing a particular investor  
25 “would signal to Chevron that we have staying power and are backed by big hitters.” Dkt.  
26 No. 47, Ex. 26. This email suggests that at least as far back as September 2010,  
27 erikmoe66@yahoo.com was discussing securing funding for Donziger’s activities against  
28 Chevron. It is also sufficient to show that discovery of the subpoenaed information may

1 lead to admissible evidence. Yahoo! must produce the requested documents about  
2 erikmoe66@yahoo.com from January 1, 2010 through February 14, 2011.

3 **g. richard.clapp@gmail.com**

4 The owner of richard.clapp@gmail.com is an epidemiologist who was involved in the  
5 litigation against Chevron in Ecuador in 2008. Dkt. No. 43-9, ¶¶ 4-5. The declarant sent  
6 several emails to Donziger in November 2008 about a trip to Ecuador. Dkt. No. 47, Ex. 28.  
7 The declarant also authored a five page report for Stratus Consulting. *Id.* Judge Kaplan  
8 previously found that Chevron had established probable cause to believe that defendants  
9 misrepresented the relationship between Stratus Consulting and Richard Stalin Cabrera  
10 Vega (“Cabrera”), who was selected by the Lago Agrio court to serve as the independent  
11 global expert.<sup>6</sup> *Chevron Corp. v. Donziger*, 2013 WL 1087236, at \*30.

12 A subsequent email from a member of Stratus Consulting to Donziger refers to a need  
13 to talk to “Clapp” about “that 5-pager” and emphasizes that its distribution should be  
14 limited. Dkt. No. 47, Ex. 28. Another email from a member of Stratus Consulting states  
15 that “the thing [Dick] wrote for Steven that ended up as an Appendix to the Cabrera report  
16 might be cited in there (Clapp et al., 2006).” Dkt. No. 47, Ex. 27. These exchanges and the  
17 declarant’s own admissions indicate that Chevron’s subpoenas are likely to lead to the  
18 discovery of admissible evidence. Although the declarant states that he was only involved  
19 in the underlying litigation in 2008, the email from Stratus consulting indicates that he may  
20 have written reports as early as 2006. Accordingly, Google must produce the documents  
21 related to richard.clapp@gmail.com between January 1, 2006 and February 14, 2011.

22 //

23  
24  
25  
26 <sup>6</sup> As discussed in Part I., Judge Kaplan analyzed whether the crime-fraud exception to the attorney-  
27 client privilege rendered documents discoverable, and thus considered whether there was probable  
28 cause to believe that a crime or fraud had been committed. *Chevron Corp. v. Donziger*, 2013 WL  
1087236, at \*3.

1           **h.    lauragarr@gmail.com**<sup>7</sup>

2           Magistrate Judge Francis in the Southern District of New York already determined  
3 that “Ms. Garr worked intermittently with Mr. Donziger from the spring of 2007 until  
4 October of 2012,” first as a legal intern and then as a contract attorney. Dkt. No. 47, Ex. 31  
5 at 25. Judge Francis also found that Ms. Garr did not maintain a dedicated work email and  
6 that “she sent and received e-mails related to the Lago Agrio litigation from her Gmail  
7 account . . . lauragarr@gmail.com.” *Id.* at 26. The subpoena at issue in front of Judge  
8 Francis included email data, although Chevron did not specifically seek IP logs in that  
9 subpoena. *Chevron Corp. v. Salazar*, No. 11-cv-03718 LAK (JCF) (S.D.N.Y.), Dkt. No.  
10 27-1. Moreover, Judge Francis ordered Ms. Garr to produce all of the documents she had  
11 previously withheld on the basis of privilege. Dkt. No. 41, Ex. 31 at 46. The Court finds  
12 that Chevron’s subpoena is more properly directed to Ms. Garr, rather than the ISPs, and  
13 that Chevron has already had the opportunity to receive all email communications from Ms.  
14 Garr related to her involvement with Donziger and the underlying litigation. The Court  
15 therefore quashes Chevron’s subpoena for documents related to lauragarr@gmail.com.

16           **i.    drewwoods3@yahoo.com and drewwoods3@gmail.com**

17           Chevron asserts that the owner(s) of drewwoods3@yahoo.com and  
18 drewwoods3@gmail.com are attorneys who worked for Donziger on the Lago Agrio  
19 litigation. Dkt. No. 46 at 13. Judge Francis considered a subpoena for all documents,  
20 including emails, issued to Andrew Woods, an associate who worked for Donziger.  
21 *Chevron Corp. v. Salazar*, No. 11-cv-03718 LAK (JCF) (S.D.N.Y.), Dkt. No. 27-2.  
22 Nowhere in Judge Francis’ order, or in the exhibits Chevron submitted in support of its  
23 motion to compel production, is Andrew Woods connected with either  
24 drewwoods3@yahoo.com or drewwoods3@gmail.com. Therefore, unlike Ms. Garr and the  
25 previously addressed Doe movants, Chevron has not shown what connection these email

26 <sup>7</sup> The Doe movants claim to represent the owner of the email address lara\_garr@gmail.com. Dkt.  
27 Nos. 43-2, 53. As Chevron’s subpoena seeks documents related to lauragarr@gmail.com, and not  
28 lara\_garr@gmail.com, dkt. no. 42-1, the Court presumes that the Doe movants represent the owner  
of the email address lauragarr@gmail.com and that the other address is a typo.

1 addresses have to the underlying litigation. The Court quashes Chevron's subpoena for  
2 documents related to the email addresses drewwoods3@yahoo.com and  
3 drewwoods3@gmail.com.

4 **j. coldmtn@gmail.com**

5 The owner of coldmtn@gmail.com is involved with Amazon Watch and once emailed  
6 Donziger about a press release. Dkt. No. 47, Ex. 33. He also has a Twitter account and  
7 writes for the Huffington Post. Dkt. No. 47, Exs. 34, 35. The email to Donziger does not  
8 mention the Lago Agrio litigation, or indicate that the press release was part of a  
9 coordinated effort, or that coldmtn@gmail.com was acting on behalf of Donziger. Chevron  
10 has not shown that IP logs for coldmtn@gmail.com are relevant to its underlying claims  
11 against defendants. Chevron alleges that the owner of coldmtn@gmail.com is employed by  
12 Amazon Watch and coordinated a pressure campaign against it, but merely being associated  
13 with the group Amazon Watch does not render a person, or an email address, complicit in  
14 defendants' alleged fraud. *See Chevron Corp. v. Donziger*, 2013 WL 1402727, at \*4  
15 (finding that Chevron failed to show that Amazon Watch's campaigns were unlawful and  
16 noting that Judge Kaplan's findings regarding the probability of defendants' fraud did not  
17 include any involvement by Amazon Watch). The Court quashes Chevron's subpoena for  
18 documents related to the email address coldmtn@gmail.com.

19 **k. bandawatch@gmail.com**

20 Chevron alleges that the owner of bandawatch@gmail.com is affiliated with Amazon  
21 Watch and involved in coordinating pressure campaigns against Chevron. Dkt. No. 46 at  
22 13. Chevron has documented that the owner of bandawatch@gmail.com has a Twitter  
23 account. Dkt. No. 47 at 36. Chevron has not documented how the owner of this email  
24 address is connected with the underlying litigation or how its subpoena for documents  
25 related to this address will produce discovery relevant to its claims. The Court quashes  
26 Chevron's subpoena for documents related to the email address bandawatch@gmail.com.

27 //

1                   **l.     josephmutti@gmail.com**

2           Joseph Mutti, the owner of josephmutti@gmail.com, published an article on the status  
3 of Chevron’s oil concessions in Ecuador. Dkt. No. 47, Ex. 37. He takes a critical view of  
4 Chevron in the article. *Id.* He quotes Donziger. *Id.* He references a statement by Atossa  
5 Soltani, the Executive Director of Amazon Watch. *Id.* He suggests as plausible that the  
6 CIA assassinated Ecuador’s former president for trying to stand up to Texaco, Chevron’s  
7 predecessor-in-interest in Ecuador. *Id.*

8           Chevron makes no showing of how Mr. Mutti is involved with defendants or their  
9 alleged scheme, other than reporting in a way that adds fuel to their fire against Chevron.  
10 Chevron also makes no showing regarding how documents about Mr. Mutti’s email address  
11 will lead to the discovery of relevant evidence. The Court quashes Chevron’s subpoena for  
12 documents related to the email address josephmutti@gmail.com.

13                   **m.     jenbilbao3@yahoo.com and lore\_gamboa@yahoo.es**

14           Chevron alleges that the owners of jenbilbao3@yahoo.com and  
15 lore\_gamboa@yahoo.es “drafted materials in the fraudulent Ecuador litigation.” Dkt. No.  
16 46 at 13. In support of its allegations, Chevron submits two exhibits. These exhibits show  
17 that Jennifer E. Bilbao is the owner of jenbilbao3@yahoo.com and that she enjoys  
18 travelling, hiking, watching movies, and reading. Dkt. No. 47, Ex. 38. They also show that  
19 the owner of lore\_gamboa@yahoo.es is listed as a contact person the website of Forest  
20 Garden Certification.com, a site that promotes reforestation of vulnerable ecosystems. Dkt.  
21 No. 47, Ex. 42. Chevron has not demonstrated any connection between these email  
22 addresses and defendants’ alleged conduct. The Court quashes Chevron’s subpoena for  
23 documents related to the email addresses jenbilbao3@yahoo.com and  
24 lore\_gamboa@yahoo.es.

25                   **n.     briansethparker@gmail.com**

26           Chevron asserts that briansethparker@gmail.com worked as an intern for Donziger.  
27 Dkt. No. 46 at 13. In support of its subpoena for documents related to this address, Chevron  
28 submits an email sent by briansethparker@gmail.com about a screening of “Crude,” a film

1 about Chevron in Ecuador, and a screenshot of a Facebook profile registered to  
2 briansethparker@gmail.com. Dkt. No. 47, Ex. 42.

3 Brian Parker, who worked as an intern for Donziger and for the Lago Agrio plaintiffs,  
4 is the subject of a separate motion to compel brought by Chevron that is currently pending  
5 before this Court. *See* Case No. 11-mc-80217 CRB (NC), Dkt. No. 1. In its opposition to  
6 the Doe movants' motion to quash, Chevron does not state whether this email address  
7 belongs to the same former intern that is the subject of its other discovery proceeding. An  
8 exhibit supporting Chevron's motion to compel in 11-mc-80217, contains Parker's privilege  
9 log, which includes his email address, briansethparker@gmail.com. Case No. 11-mc-  
10 80217, Dkt. No. 2, Ex. 3. Notably, in the 11-mc-80217 proceeding, Chevron seeks email  
11 communication from Brian Parker. Because Chevron has the opportunity to gather the  
12 information it seeks from the third party ISPs directly from the source, and is in fact taking  
13 action to do so, the Court quashes the subpoena to Google for documents related to the  
14 email address briansethparker@gmail.com.

15 o. **goldstein.ben@gmail.com, katiafachgomez@gmail.com, and**  
16 **kshuk22@yahoo.com**

17 Chevron alleges that the owners of goldstein.ben@gmail.com,  
18 katiafachgomez@gmail.com, and kshuk22@yahoo.com were interns who worked at  
19 Donziger's direction. Dkt. No. 46 at 13. Chevron's supporting exhibits show that:

- 20 (1) the owner of goldstein.ben@gmail.com was in the Class of 2010 at  
21 Fordham Law School. Dkt. No. 47, Ex. 39;
- 22 (2) the owner of katiafachgomez@gmail.com is a law professor in Spain and  
23 published an article about Latin American countries' use of the  
24 International Center for the Settlement of Investment Disputes. Dkt. No.  
25 47, Ex. 40; and
- 26 (3) the owner of kshuk22@yahoo.com "just joined Twitter and [doesn't] know  
27 how to use it!" Dkt. No. 47, Ex. 41.

28 //

1 Chevron has established no involvement in the Lago Agrio litigation by these former  
2 interns, in sharp contrast to the interactions Chevron was able to document between other  
3 former interns that indicated a subpoena for documents related to those addresses might  
4 yield relevant discovery. The Court quashes Chevron's subpoena for documents related to  
5 the email addresses goldstein.ben@gmail.com, katiachgomez@gmail.com, and  
6 kshuk22@yahoo.com.

7 p. sayjay80@gmail.com, catmongeon@gmail.com,  
8 wilsonaguinda@gmail.com, sara.colon@gmail.com,  
9 farihahzaman@gmail.com, jeremylow@gmail.com,  
10 courtneyrwong@gmail.com, marialya@gmail.com,  
11 lupitadeheredia@gmail.com hueyzaactlan@gmail.com,  
12 rogers.john@gmail.com, and belanger.laura@gmail.com

11 Chevron alleges that sayjay80@gmail.com, catmongeon@gmail.com,  
12 sara.colon@gmail.com, farihahzaman@gmail.com, jeremylow@gmail.com,  
13 courtneyrwong@gmail.com were interns who worked at the direction of Donziger. Beyond  
14 this allegation, Chevron has shown no connection between these email addresses and its  
15 claims. The Court quashes Chevron's subpoena for documents related to these addresses.

16 Chevron alleges that marialya@gmail.com and lupitadeheredia@gmail.com  
17 coordinated pressure campaign activities against Chevron, but has not shown any  
18 connection between these addresses and Donziger, or any other party to this litigation,  
19 Amazon Watch, or any advocacy group. The Court quashes Chevron's subpoena for  
20 documents related to these addresses.

21 Chevron does not even mention the addresses hueyzaactlan@gmail.com,  
22 rogers.john@gmail.com, belanger.laura@gmail.com, lupitadeheredia@yahoo.com, or  
23 wilsonaguinda@gmail.com in its oppositions or declarations and makes no showing of how  
24 these email addresses are connected to the underlying dispute or likely to yield relevant  
25 discovery. The Court quashes Chevron's subpoenas related to these addresses.

26 //

#### IV. CONCLUSION

1  
2 Only those movants with a personal interest in this discovery dispute have standing to  
3 quash. Therefore, the motions to quash are DENIED as to srd.asst@gmail.com,  
4 gringograndote@gmail.com, pafabibi@gmail.com, ingrcabrerav@gmail.com,  
5 rcabrerav@gmail.com, casotexaco@gmail.com, grahamrocks@gmail.com,  
6 anemachetes@gmail.com, garcesme@gmail.com, echeverra.alejandra@gmail.com,  
7 invictusdocs2010@gmail.com, comandocondor88@gmail.com, cara.parks@gmail.com,  
8 osimonc@gmail.com, sdonziger@yahoo.com, sdonziger2@yahoo.com,  
9 ingrcabrerav@yahoo.com, rcabrerav@yahoo.com, lcoca62@yahoo.com.mx,  
10 jdtorres@yahoo.com, elpezkadr@yahoo.com, pedrofreire69@yahoo.es,  
11 fpenafiel1100@yahoo.com, champcw1@yahoo.com, robinsoncofan@yahoo.es,  
12 juanaulestia@yahoo.com.mx, emu\_25@yahoo.com, doug\_vilsack@yahoo.com,  
13 valeramia@yahoo.com, frente\_de\_defensa@yahoo.com, ruben.miranda@rocketmail.com,  
14 limcas2002@yahoo.com, and sandragrimaldi12@yahoo.com. Google and Yahoo! are  
15 ordered to produce the requested discovery related to these email addresses from January 1,  
16 2003 through February 14, 2011.

17 The Doe movants vastly overestimate the amount of legal protection accorded to the  
18 subscriber and usage information associated with their email addresses. The Doe movants  
19 have not met their burden to show that Chevron's subpoenas to Google and Yahoo! seek  
20 privileged or protected information. Nevertheless, Chevron's subpoenas must be limited to  
21 information relevant to its claims and that appears reasonably calculated to lead to the  
22 discovery of admissible evidence. Because parts of Chevron's subpoenas to the ISPs do not  
23 seek relevant discovery, the Court narrows them as follows:

- 24 • Google must produce the requested documents related to the email address  
25 cortelyou@gmail.com from the creation of the address through February 14,  
26 2011;
- 27 • Google must produce the requested documents related to the email address  
28 firger@gmail.com from January 1, 2006 through December 31, 2009;

- 1 • Google must produce the requested documents related to the email address
- 2 tegelsimeon@gmail.com from the creation of the email account through
- 3 December 31, 2008;
- 4 • Google must produce the requested documents related to the email address
- 5 kevincoeningquito@gmail.com from the creation of the email account through
- 6 February 14, 2011;
- 7 • Yahoo! must produce the requested documents related to the email address
- 8 erikmoe66@yahoo.com from January 1, 2010 through February 14, 2011; and
- 9 • Google must produce the requested documents related to the email address
- 10 richard.clapp@gmail.com from January 1, 2006 through February 14, 2011.

11 In addition, the Court QUASHES the subpoenas for documents related to the email  
 12 addresses: ampage@gmail.com, lauragarr@gmail.com, drewwoods3@yahoo.com,  
 13 drewwoods3@gmail.com, coldmtn@gmail.com, bandawatch@gmail.com,  
 14 josephmutti@gmail.com, jenbilbao3@yahoo.com, lore\_gamboa@yahoo.es,  
 15 goldstein.ben@gmail.com, katiachgomez@gmail.com, kshuk22@yahoo.com,  
 16 briansethparker@gmail.com, sayjay80@gmail.com, catmongeon@gmail.com,  
 17 wilsonaguinda@gmail.com, sara.colon@gmail.com, farihahzaman@gmail.com,  
 18 jeremylow@gmail.com, courtneyrwong@gmail.com, marialya@gmail.com,  
 19 lupitadeheredia@gmail.com, hueyzactlan@gmail.com, rogers.john@gmail.com, and  
 20 belanger.laura@gmail.com.

21 Because defendants have not shown that the subpoenas are redundant or irrelevant  
 22 under Rule 26, the Court DENIES defendants' motion to quash. Google and Yahoo! are  
 23 ordered to produce the requested discovery related to the email addresses  
 24 sdonziger@gmail.com, javipi002@gmail.com, and documents2010@ymail.com from  
 25 January 1, 2003 through February 14, 2011.

26 All documents produced by the ISPs will be subject to the terms of a protective order  
 27 to be entered by the Court. Plaintiff's counsel, defendants' counsel, and counsel for the  
 28 Doe movants must meet and confer and submit either a proposed protective order, or if no

1 consensus is reached, separate proposed orders, that will adequately protect the use and  
2 distribution of the subpoenaed information, in particular the information of non-parties, by  
3 September 5, 2013. If needed, the Court will set a hearing on the matter. The parties may  
4 wish to use the standard protective order, available on the Court's website at  
5 <http://www.cand.uscourts.gov/stipprotectorder>.

6 Any party may object to this order by September 5, 2013. Fed. R. Civ. P. 72(a).

7 IT IS SO ORDERED.

8 Date: August 22, 2013

  
9 Nathanael M. Cousins  
United States Magistrate Judge
